

SENAMA YOUTH CLUB-MANSA

REPORT

20<sup>TH</sup> SEPTEMBER,2024.

As per schedule, on Friday the 20<sup>th</sup> of September, 2024. Senama Youth club Mansa conducted an awareness outreach campaign at Chofoshi primary school also formerly known as Mwana Chama primary school in Mansa.

The purpose of this engagement is to bring awareness among learners on the rising issues of climate change and provide them with skills to help them in preserving a healthy environment.

The team was led by the youth club chairperson and supported by the ministry of health and ministry of education. In attendance was the school head teacher and 2 other teachers. The meeting was a success as we saw learners expressing themselves freely to give out solutions. Not only that but they also expressed their concerns about the issues surrounding climate change in their communities.

Some of the things discussed were

### ***Causes of climate change***

- Human activities such as farming
- industrialization
- poor waste management
- deforestation

### ***Impacts of climate change***

- displacement
- loss of habitats
- land degradation
- diseases and death
- floods and droughts

- other extreme weather events
- low economic performance etc.

### ***Ways of preventing climate change***

- Afforestation
- proper waste management
- avoid using vehicles with carbon emissions
- use of renewable energy sources
- improve on farming methods etc.

In trying to build resilience to climate change, we emphasized the learners to take keen interest in activities that are structured to improve and protect the environment. Because they're the future leaders.

The activity had a total of 182 people of which 93 were males out of which 2 were teachers, 2 club members and 89 were pupils and 89 were females with 1 being a teacher, 3 club members, 1 health personnel and 84 pupils.
