

SENAMA YOUTH CLUB

REPORT

11th OCTOBER 2024

Friday the 11th of October 2024 Senama youth club conducted an awareness outreach campaign at Fiyongoli school. The club was led by the youth club chairperson and the area councillor for Kaole ward Hon J. Kalebaila with support from the ministry of education and ministry of health.

The main aim of this activity was to equip learners with information on climate change and provide them with skills to help them in preserving a healthy environment and attain a just climate.

The campaign also aimed at bringing on the learners of young age because they are the future leaders.

The area councillor hon J. Kalebaila spoke in the need of working together with the pupils and the teachers in the fight against Climate. He further stated that pupils will build a stronger community and become better leaders if they take action and help build a resilient community to climate change.

Here are some of the issues discussed

Causes

- Burning of fossil fuels
- Deforestation
- Industrial emissions
- improper waste management
- mining

Effects

- Extreme weather events
- increased hunger due to low production of food
- droughts
- Diseases
- Displacement
- floods
- Land degradation
- Poor economic performance

Ways of preventing climate change

- investing in renewable energy sources
- proper waste management and
- improve farming methods
- restore nature for storage of carbon and carbon balance
- Afforestation

Among other but to mention a few.

The meeting was a success with a total number of 305 people in attendance of which 167 were females out of which 160 were learners, 4 club members, 1 health personnel and 2 teacher and 138 males out of which 3 were club members, 1 ward councillor and 134 pupils.
